

Brussels, 5 October 2021

INVITATION

Dear all,

Over the years, FABEC has conducted a series of workshops on specific operational topics. Based on your positive feedback after our first Vertical Flight Efficiency workshop in December 2020, it is our pleasure to invite you to the

2nd FABEC VFE (Vertical Flight Efficiency) Expert Workshop

Tuesday, 7 December 2021

10:00 - 15:30

Brussels

We are happy to announce that we plan to meet in person at the skeyes premises near Brussels Airport (a Covid Safe Pass will be required).

This face-to-face workshop will ease the exchange of views on VFE and will provide updates between FABEC ANSPs, airlines and flight plan service providers on concrete aspects and proposals regarding **Vertical Flight Efficiency in the FABEC area**.

Environmental impacts are high on the agenda. We need to continue working together on improving VFE. During the workshop, we would like to highlight the progress made since last year (e.g. trials, actions taken) and explore solutions for the future. A detailed agenda and practical information will soon be provided.

If you have any suggestions, questions or comments feel free to contact Mrs. Nadine Meesen, responsible for FABEC CRM activities (nadine.meesen@fabec.eu or [+32 475 9999 48](tel:+32475999948)).

In the meantime we hope that traffic will continue to recover and look forward to seeing you on 7 December

Kind regards

Ilona Sitova
