 - FABEC wide: KPAs Safety, Capacity, Environment
 - National based: Cost-efficiency
- A written consultation based on a web-based infrastructure.

- information provided during the meetings
- a description of the consultation process
- a template (.doc) to be used by the stakeholders for their comments
- an email address (consultation@fabec.eu) as single entry point for all written comments. All emails in-coming will be saved and forwarded to the 6 FABEC-States.
